

**Targa New Zealand 2021** will be touring the area Saturday 30<sup>th</sup> October 2021. We are wondering if Pukehāmoama School would be interested in marshalling the following stage.

Please note we are still in the consultation stage with local councils and residents.

**Safety Marshalling:** **CROWNTHORPE 1 & 2**

- Marshals required: 8
- Donation offered: \$500
- Date of Event: Saturday 30<sup>th</sup> October 2021
- Road Closure: 7:15am – 3:05pm\* *\*(We aim to have the road open earlier. 1 to 1 ½ hours is built in just in case of an incident requiring time to address)*

**DUTIES INCLUDE:**

- Taping of the stage before road closure and erecting signs delivered to specific locations by a Traffic Management Company
- Marshalling during the event at assigned locations.
- Removing tape when the stage is complete (this includes lowering the traffic signs)

Targa NZ provides the safety tape, Hi-Viz vests, road closure signage and the necessary paperwork including a 'Marshal Training Guide', video training, etc. A Traffic Management contractor will place all heavy steel signs on the side of the road the day before.

**Approximate time frames on the day:**

- 1 or 2 hours before road closure - Taping starts of all gates and driveways on the rally stage. Intersections can only be taped at road closure time.
- ½ hour before road closure - All marshals to be on site at allocated intersections and start and finish points. NB: Targa Safety cars will check and remedy any missed gates.
- Road open time - Event will finish and marshals are required to commence removal of tape immediately thereafter.
